CV

ABOUT ME

I'm a software developer with over 6 years of experience, specializing in building cutting-edge services for companies across different industries, most recently in finance and blockchain. Throughout my career, I've led several fantastic development teams. My craft is developing C# and .NET backend apps with various SQL and NoSQL databases behind, with occasional front-end gigs using Flutter, React or Angular.

EXPERIENCE

6+ years

Lead Software Engineer / 2023
Ankr, Remote

Led a small team, developing blockchain nodes load balancer. Switched with the team from C# to Go (Golang).

Senior Software Engineer / 2021 - 2023
Securrency, Abu Dhabi

Was part of the team developing a tokenization platform. Created resilient blockchain-based APIs and microservices with C#, .NET Core, MS SQL, NServiceBus, RabbitMQ

Software Architect / 2020 - 2021
PickPoint, Moscow

Supervised 2 teams, leading them from monolith to microservices and implementing Scrum practices. Armed the company with cutting-edge services on .NET Core WebApi, RabbitMQ, ElasticSearch, MongoDb, Redis and Postgres.

Software Engineer / 2018 - 2020
PickPoint, Moscow

Participated in the logistical company software transformation. Shaped the department vision, using ASP .NET MVC, EF Core, MS SQL, Angular, Docker.

Junior Software Engineer / 2017 - 2018
WSS Consulting, Moscow

Implemented custom modules in SaaS Document Management System. Provided the new functionality, utilizing C#, ASP.NET MVC, MS SQL, JavaScript, jQuery

EXPERTISES

Microservices

DevOps

Leadership

Scrum

Blockchain

EDUCATION

Bachelor, Business Informatics / 2012-2017
MIREA - Russian Technological University

Certified Solutions Associate / 2019
Microsoft, Universal Windows Platfrom

EGOR TARASOV

SENIOR SOFTWARE ENGINEER

HARD SKILLS

C# / .NET

SQL

NoSQL

Flutter

And also ...

`ASP.NET` `WebApi` `MVC` `EF Core`

`MS SQL` `PostgreSQL` `MongoDB` `Redis`

`Docker` `RabbitMQ` `ElasticSearch`
